

DURO-LAST, INC.

525 Morley Drive
Saginaw, MI 48601

DETAIL 2085

A-Style

B-Style

Note 1: A and B-style elbows are available in 80° and 45° angles. A-style elbows direct water away from the building. B-style elbows direct water alongside the building.

Note 2: Install all elbows with a minimum of two pop rivets per side. Place overlapping joints in progressive order to ensure a water-shedding joint.
